Quality Creates Value Detail Makes Difference

AJ12

Comfortable Healthy

AJ12 is one of our high class dental chairs, with exquisite outlook, high quality materials. Our concept is to create healthy working conditions for dentist and comfortable environment for patients.

Healthy working

In the daily job, request dentist to keep the same position for several hours, it will hurt their cervical vertebra and lumbar vertebra. Our chair and stool can give dentist a comfortable position. relieving the fatigue of muscle commendably. Prolong career of dentist and improve the quality of life.

Sumptuous space for legs

Pear-shaped backrest not only enables ergonomic access to oral cavity for dentists but also makes large comfort for patients.

Close to patient freely

The curve design on the backrest, makes the assistant can maximum close to the treatment area.

D2 Doctor Stool with 4 fuction

D2 dental stool has 4 functions, it is ergonomically designed and engineered. To fit the human body to reduce stress and fatigue. Backrest and stool height are both adjustable.

Dental light with sensor

Deluxe dental light with larger light area and sensor control.

Patient feeling comfortable

AJ12 dental chair can give a very comfortable feeling to the patient which can help them to reduce their fears and create relaxing during treatment.

Comfortable headrest
Articulating dual axis headrest with adjustable height.

Aluminum casting backrest
Special design for the backrest, is fit for patients perfectly.

Ergonomics Chair
Human engineering design, make chair and body match well, avoid patient's pushing feeling.

Chair lowest position 350mm
Makes easy entry and exit for patient.

Reliable Stable Durable

1 High quality metal backrest
2.5mm stainless steel, with strong support.

2 Stable water unit
New water unit frame made by aluminum alloy casting, improve the chair stable stability.

3 Rotatable water unit
design for four handed dentistry and convenient maintenance.

4 Aluminum cast water unit frame
